## DO YOU DREAD SURPRISE EXPENSES?

Our **Service Plan** can save you time, eliminate the hassle and stress of breakdowns *...and save you money!*

## **DON'T LET SURPRISE EXPENSES RIP MONEY FROM YOUR POCKETS**

Our **Service Plan** can save you time and eliminate the hassles and stress of appliance breakdowns. It will absolutely extend the life and usability of your machines and take some of the **“Oh no! We didn't plan for this in our budget!”** out of your life.

With the **A+ Service Plan**, you pay only for parts, and eliminate the cost of trip charges and labor. There's no limit to the number of times you may call per year.

The Service Plan includes yearly maintenance on applicable appliances. Example benefits: can frequently save enough money on refrigerator electricity costs to pay for the Service Plan; prevents dryer fires; prevents nasty odors in front-load washers; prevents water damage from dishwashers.

**In this economy, it pays to protect and repair your appliance instead of replacing it.**

**Our Service Plan can help you extend the life of your equipment.**

## **Here's What One of Our Many Satisfied Clients Had to Say:**

With Tyler's plan, I know help is on the way with a quick call, and repairs won't be way above my budget. I have peace of mind knowing that everything is taken care of.

Finding the right contractor can be tricky with respect to overpricing, quality of work and messes left behind. I'm so glad I found Tyler. He is honest, very efficient, and does excellent work. He even cleans up after completing the repair. He has also taught me how to prevent future problems. You won't find a more fair or nicer guy to take care of your home.” ~ *Stephanie W, Frisco, TX*

## **Taking care of the customer is our number one priority.**

Companies should be in business first, to serve people. Of necessity the business must make money so that it can continue to serve people.

A company serves its clients, vendors, and employees.

Honesty · Integrity · Value

My wife Nancy grew up in the appliance repair business, and I have learned this industry from her father, Dale Danielson, who has been in the appliance repair business in Albuquerque, NM for more than 50 years. We are honored that he supports us as we expand into the North Texas area.

We hold true to these guiding principles: we exist to serve our customers and do so with respect and honesty. We will tell you straight up if you should replace your appliance. We don't play games.

We're looking forward to serving you

Sincerely,  
Tyler Adkins
